A | STORE

SMART MEDICATION *and* SUPPLY MANAGEMENT

Smart medication and consumable management system that enables medication safety and operational efficiency

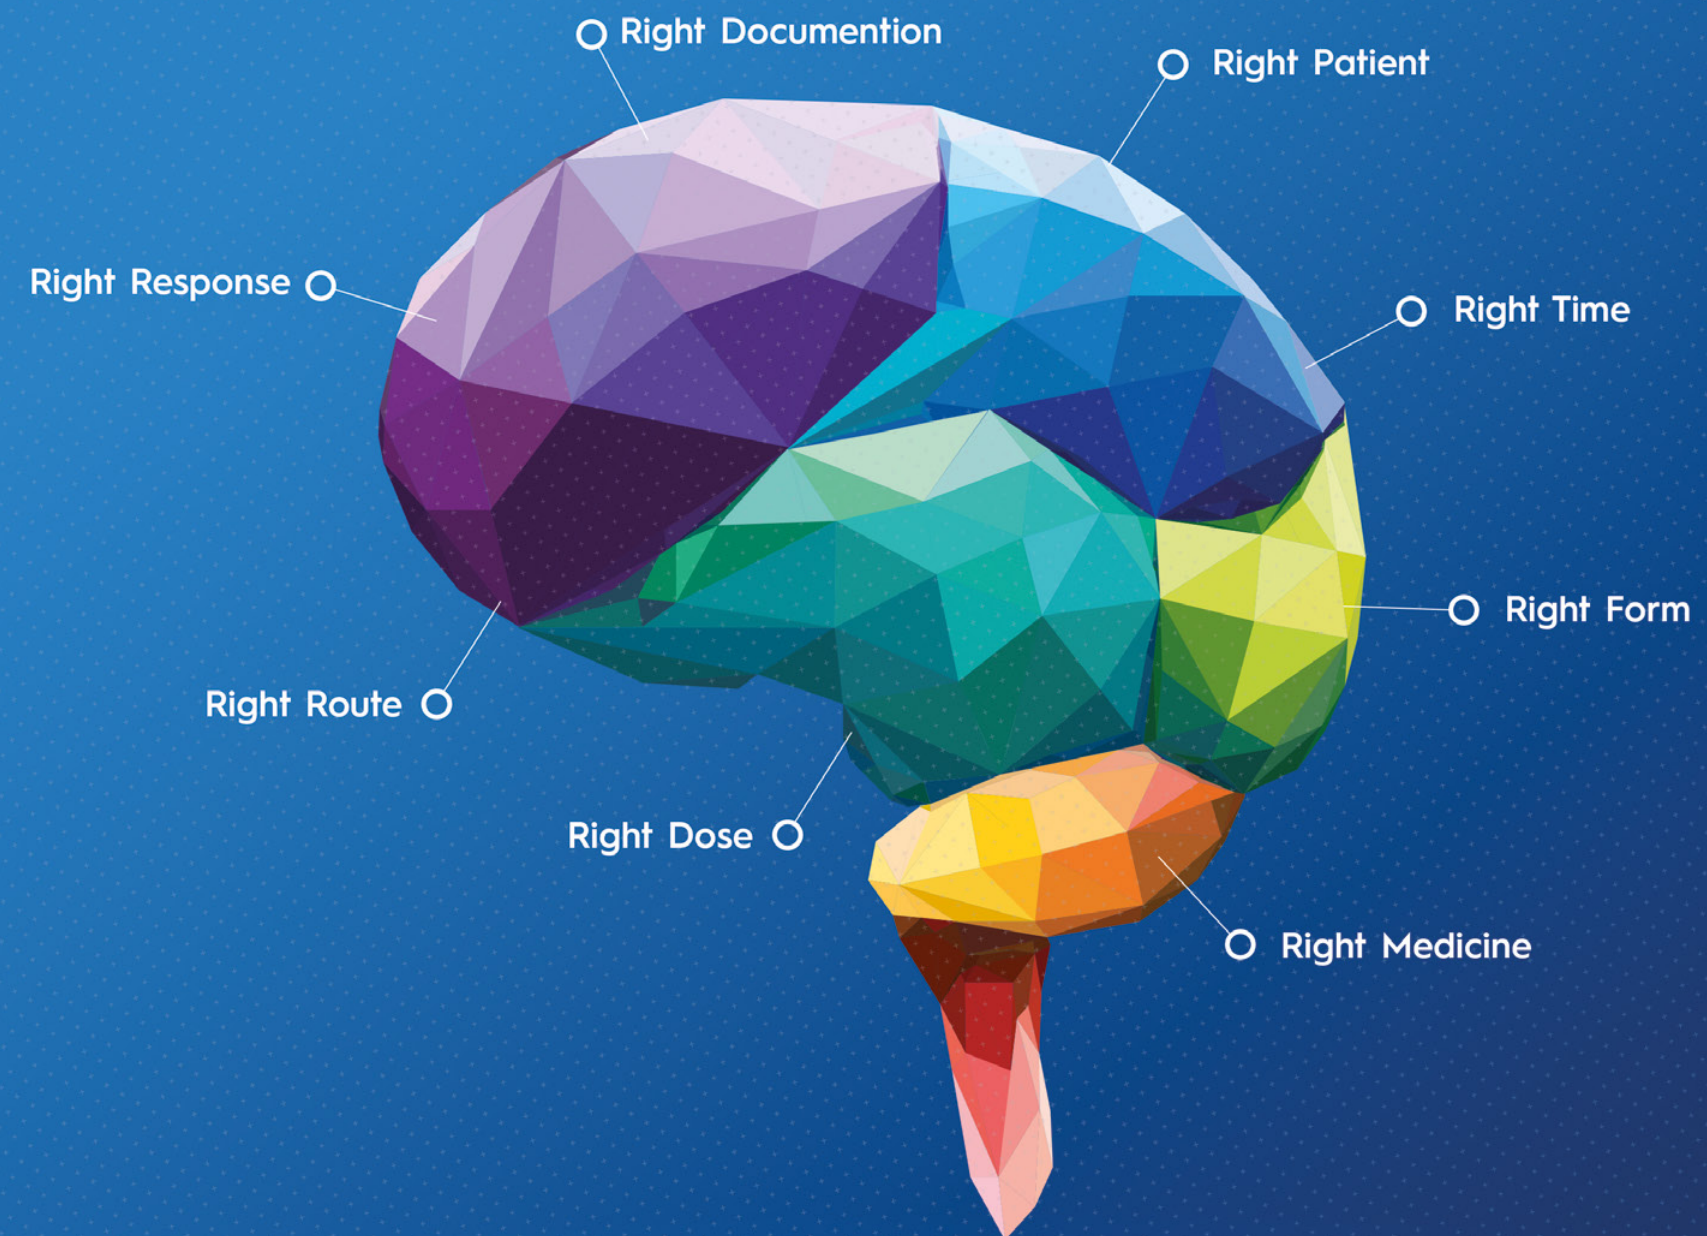

ASTORE supports multiple languages, straightforward integration to all hospital management systems with various protocols such as HL7

8 RULES *of* MEDICATION

Supporting 8 rules of medication administration on patient safety basis

Reliable way to get correct medication from the physician to pharmacy to nursing to the correct patient without delay

INNOVATIVE *and* EFFICIENT

- *Provides a comprehensive approach to medication and medical consumables dispensing*
- *Remarkable enhancement in workflow and increased productivity*
- *Single locked cells in the drawers maintain efficient and secure medical dispensing*
- *Avoids over/under stock through storage addressing*
- *Simplifies caregiving process and reduces caregiver burden*

PATIENT SAFETY

- Ensures patient-oriented approach
- Eliminates the potential medication error
- Authorization and fingerprint recognition enables a secure platform
- Narcotic medication process is secured through witness approval
- Manages cold chain medication, external locks with temperature sensors can be mounted on different units such as refrigerators

COST SAVING

- Reduces missing doses with accurate approach
- Provides correct and real-time medication and supply charging to the patient

REAL-TIME *and* SMART REPORTING

- Improves critical data and documentation accessibility
- Minimizes reporting errors by tracking of medication and supply
- Helps eliminate manual recordkeeping
